Personal Profile

A dedicated Computer Science undergraduate with a strong focus on software engineering principles and an aptitude for problem-solving. Currently in the final stages of my academic studies and looking forward to applying theoretical knowledge in a practical setting during an upcoming internship. Passionate about exploring new technologies and eager to apply my skills in a dynamic professional environment. Committed to continuous learning and growth in the field of computer science.

Skills

Soft Skills	Communication, Leadership, Problem-solving, Time management, Teamwork, Critical Thinking.
Programming Languages	C++, Python, Java, SQL, PHP, Dart.
Web Development	HTML, CSS, Bootstrap, JavaScript.
App Development	Flutter.
Business Intelligence Tools	Power BI.
Office and Productivity	Word, Docs, Excel, Spreadsheet, PowerPoint, Canva, Slides, Slack, Discord.
Languages	Bengali, English, French (Elementary Proficiency).
Version Control	Git.

Education

Independent University, Bangladesh	<i>Bashundhara R/A, Dhaka-1229</i>
Bachelor of Science in Computer Science and Engineering	<i>Jan 2020 - Current</i>
• CGPA: 3.34/4.00	
• Courses: Data Structures, Algorithm, Database Management Systems, Object-Oriented Programming, Software Engineering, Artificial Intelligence, Computer Graphics	
Dhaka Imperial College	<i>Jahrul Islam City, Dhaka 1212</i>
Higher Secondary School Certificate	<i>Jul 2016 - Jun 2018</i>
• GPA: 4.08/5.00	

Projects

Blockchain-Enabled Prawn Quality Tracking System	<i>Dhaka, Bangladesh</i>
Independent University, Bangladesh	<i>Jun 2023 - Aug 2023</i>
• Developed a shrimp quality assessment project by using blockchain techniques to analyze various parameters and ensure optimal quality standards. Skills: Android Studio, Flutter.	
Rent-IT	<i>Dhaka, Bangladesh</i>
Independent University, Bangladesh	<i>Jun 2023 - Aug 2023</i>
• Experienced in building robust backend systems, implementing database functionality, and ensuring seamless server-side operations to support a user-friendly rental platform. Skills: JavaScript, HTML, CSS, MySQL, PHP.	
Student Performance Monitoring System	<i>Dhaka, Bangladesh</i>
Independent University, Bangladesh	<i>Oct 2022 - Dec 2022</i>
• Student Performance Monitoring System optimizes data management, facilitating comprehensive tracking of academic progress and enhancing decision-making for educators. Skills: JavaScript, HTML, CSS, MySQL, PHP.	
Swarm Intelligence Algorithms for Article Clustering	<i>Dhaka, Bangladesh</i>
Independent University, Bangladesh	<i>Jun 2023 - Aug 2023</i>
• Implemented efficient swarm intelligence algorithms to cluster articles, contributing to advancements in artificial intelligence and information retrieval. Skills: Python, Numpy.	

Achievements

Tech Fest	Runner-Up , System Analysis Project Showcase, Independent University, Bangladesh. Got recognition for	<i>Dhaka,</i>
Summer, 2023	" Blockchain-Enabled Prawn Quality Tracking System " project	<i>Bangladesh.</i>
